1. (U) Scope Note

(U) The Worldwide Threat to Shipping (WTS) message provides information on threats to merchant vessels, the shipping industry, and other maritime stakeholders worldwide in the last 30 days. This report is produced primarily to inform merchant mariners and naval forces.

2. (U) Warnings and Advisories:

1. (U) **MARAD ADVISORY 2020-002-Gulf of Guinea-Piracy/Armed Robbery/Kidnapping for Ransom.**
Description: This revised advisory cancels U.S. Maritime Advisory 2019-010. Issue: Piracy/Armed Robbery/Kidnapping for Ransom continues to serve as a significant threat to United States-flagged operators with vessels transiting or operating in the Gulf of Guinea (GoG). According to the Office of Naval Intelligence's "Shipping Threat Reports" website at <https://www.oni.navy.mil/News/Shipping-Threat-Reports/>, 129 reported incidents of piracy and armed robbery at sea occurred in the GoG region in 2019. This is an 11-percent decrease from 2018, but kidnappings were at the highest level recorded in the last 11 years. Attacks, kidnappings for ransom (KFR), and boardings to steal valuables from ships and crews are the most common types of incidents, with the majority of incidents taking place off Nigeria. There were 33 kidnapping incidents in 2019, two of which involved crew members being taken from hijacked vessels when pirates disembarked. Three out of the six hijacked vessels in 2019 were petroleum tankers, likely being hijacked for cargo theft (refined petroleum products). United States-flagged operators with ships operating in or through the GoG Voluntary Reporting Area designated on Maritime Security Chart Q6114 at <http://www.shipping.nato.int/nsc/media-centre/downloads/maritime-security-charts.aspx> should transit with

extreme caution and vigilance. This advisory in its entirety and other U.S. Maritime Alerts and Advisories, including subscription details, can be found at <http://www.marad.dot.gov/MSCI>.

2. **(U) MARAD Advisory 2019-012-Persian Gulf, Strait of Hormuz, Gulf of Oman, Arabian Sea, Red Sea - Threats to Commercial Vessels.** Description: This revised advisory cancels U.S. Maritime Advisories 2019-004 and 2019-008. References: U.S. Maritime Alerts 2019-004A, 2019-003A, 2019-002A, and 2019-001A. Issue: Heightened military activity and increased political tensions in this region continue to pose serious threats to commercial vessels. Associated with these threats is a potential for miscalculation or misidentification that could lead to aggressive actions. Vessels operating in the Persian Gulf, Strait of Hormuz, and Gulf of Oman may also encounter GPS interference, bridge-to-bridge communications spoofing, and/or other communications jamming with little to no warning. For more information about U.S. Maritime Alerts and Advisories, including subscription details, please visit <http://www.marad.dot.gov/MSCI>.
